on behalf of

**Christine Mydlak-Röder**  
**Head of Notified Body**

A U.S. Coast Guard approval number will be assigned to the equipment when the production module has been completed and will appear on the production module certificate (module D, E or F), as allowed by the Agreement between the United States of America and the EEA EFTA states on the mutual recognition of Certificates of Conformity for Marine Equipment signed 17 October 2005, and amended by Decision No 1/2023 dated August 21st, 2023.

The mark of conformity may only be affixed to the above type approved equipment and a Manufacturer's Declaration of Conformity issued when the production-surveillance module (D, E or F) of Annex B of the MED is fully complied with and controlled by a written inspection agreement with a Notified Body. The product liability rests with the manufacturer or his representative in accordance with Directive 2014/90/EU.

This certificate is valid for equipment, which is conform to the approved type. The manufacturer shall inform DNV AS of any changes to the approved equipment. This certificate remains valid unless suspended, withdrawn, recalled or cancelled.

Should the specified regulations or standards be amended during the validity of this certificate, the product is to be re-approved before being placed on board a vessel to which the amended regulations or standards apply.

**LEGAL DISCLAIMER:** Unless otherwise stated in the applicable contract with the holder of this document, or following from mandatory law, the liability of DNV AS, its parent companies and their subsidiaries as well as their officers, directors and employees ("DNV") arising from or in connection with the services rendered for the purpose of the issuance of this document or reliance thereon, whether in contract or in tort (including negligence), shall be limited to direct losses and under any circumstance be limited to USD 300 000.

### Product description

"BIP C-615: B-15 Class Continuous Ceiling"

Composed of panels suspended below the structural steel deck. Panels consist of 50 mm thick mineral wool (manufactured by KCC Corporation, Korea) of density 80 kg/m<sup>3</sup>, covered with 0.6 mm thick galvanized steel sheet on one side.

The panels are joined together by means of male and female sliding arrangement.

Total ceiling thickness is 50 mm.

For further details, see the drawings listed under Type Examination documentation below.

### Application/Limitation

Approved for use as a horizontal continuous fire retarding division of class B-15.

Max panel size is 300 x 2360 mm (W x L).

Max. distance between P751 T-carriers (longitudinal direction): 2360 mm

Max. distance between P754 Hanger sets (transverse direction): 900 mm

The insulation materials and adhesives used have to be approved according to the Marine Equipment Directive and bear the Mark of Conformity. This requirement may also be applicable for surface materials used, if required by relevant rules and regulations.

Each product is to be supplied with its manual for installation and use.

### Type Examination documentation

Document No.	Rev.	Title
AK2013-0208		Test Report dated 8 October 2013 from Fire Insurers Laboratories of Korea (FILK), Korea.

### Tests carried out

Tested according to IMO 2010 FTP Code part 3.

### Marking of product

The product is to be marked with name and address of manufacturer, type designation, fire technical rating, the MED Mark of Conformity and USCG Approval Number if applicable (see first page).
