Further details of the equipment and conditions for certification are given overleaf.

This Certificate is valid until **2029-05-19**.

Issued at **Høvik** on **2024-05-20**

DNV local unit:
Gimhae Station

Approval Engineer:
Karolina Kusmider

Notified Body
No.: **0575**

for **DNV AS**

Digitally Signed By:
Tessa Biever
Location: **DNV Høvik, Norway**
on behalf of

Mydlak-Röder, Christine
Head of Notified Body

A U.S. Coast Guard approval number will be assigned to the equipment when the production module has been completed and will appear on the production module certificate (module D, E or F), as allowed by the "Agreement between the United States of America and the EEA EFTA states on the mutual recognition of Certificates of Conformity for Marine Equipment" signed 17 October 2005, and amended by Decision No 1/2023 dated August 21st, 2023.

The mark of conformity may only be affixed to the above type approved equipment and a Manufacturer's Declaration of Conformity issued when the production-surveillance module (D, E or F) of Annex B of the MED is fully complied with and controlled by a written inspection agreement with a Notified Body. The product liability rests with the manufacturer or his representative in accordance with Directive 2014/90/EU.

This certificate is valid for equipment, which is conform to the approved type. The manufacturer shall inform DNV AS of any changes to the approved equipment. This certificate remains valid unless suspended, withdrawn, recalled or cancelled.

Should the specified regulations or standards be amended during the validity of this certificate, the product is to be re-approved before being placed on board a vessel to which the amended regulations or standards apply.

LEGAL DISCLAIMER: Unless otherwise stated in the applicable contract with the holder of this document, or following from mandatory law, the liability of DNV AS, its parent companies and their subsidiaries as well as their officers, directors and employees ("DNV") arising from or in connection with the services rendered for the purpose of the issuance of this document or reliance thereon, whether in contract or in tort (including negligence), shall be limited to direct losses and under any circumstance be limited to 300,000 USD.

Product description

"BIP W-162"

Bulkhead composed of panels faced on exposed side with 0.6 mm steel sheets and insulated with two layers of mineral wool, 15 mm thick each (density 200 kg/m³, manufactured by KCC Corporation, Korea). The mineral wool is glued to the steel sheets with adhesive OUCA-1000RC manufactured by Dae Han Polymer Industries, Korea. The panels are connected by screws through 52.4 mm wide and 1.2 mm thick O'Mega steel profiles, insulated with 15 mm mineral wool of density 200 kg/m³.

Total thickness of panel: 30 mm.

For further details see drawing(s) listed under Type Examination documentation.

Application/Limitation

Approved for use as a vertical fire retarding division of class B-15.

Max panel size: 600 mm x 2410 mm (W x H).

The insulation materials and adhesives used have to be approved according to the Marine Equipment Directive and bear the Mark of Conformity. This requirement may also be applicable for surface materials used, if required by relevant rules and regulations.

Each product is to be supplied with its manual for installation and maintenance.

Type Examination documentation

Test Report No. KOMERI-0402-12T579 dated 05 September 2012 from Korea Marine Equipment Research Institute, Korea.

Drawing No. W-162-B15-R0 dated 6 March 2012 from the manufacturer.

Tests carried out

Tested according to IMO 2010 FTP Code part 3.

Marking of product

The product is to be marked with name and address of manufacturer, type designation, fire technical rating, MED Mark of Conformity and USCG approval number if applicable (see first page).
