Issued at **Høvik** on **2020-11-10**

DNV GL local station:  
**Gimhae Station**

for **DNV GL AS**

Approval Engineer:  
**Marcin Tobiasz**

Notified Body  
No.: **0575**

.....  
**Roald Vårheim**  
**Head of Notified Body**

A U.S. Coast Guard approval number will be assigned to the equipment when the production module has been completed and will appear on the production module certificate (module D, E or F), as allowed by the "Agreement between the United States of America and the EEA EFTA states on the mutual recognition of Certificates of Conformity for Marine Equipment" signed 17 October 2005, and amended by Decision No 1/2019 dated February 22nd, 2019.

The mark of conformity may only be affixed to the above type approved equipment and a Manufacturer's Declaration of Conformity issued when the production-surveillance module (D, E or F) of Annex B of the MED is fully complied with and controlled by a written inspection agreement with a Notified Body. The product liability rests with the manufacturer or his representative in accordance with Directive 2014/90/EU.

This certificate is valid for equipment, which is conform to the approved type. The manufacturer shall inform DNV GL AS of any changes to the approved equipment. This certificate remains valid unless suspended, withdrawn, recalled or cancelled.

Should the specified regulations or standards be amended during the validity of this certificate, the product is to be re-approved before being placed on board a vessel to which the amended regulations or standards apply.

LEGAL DISCLAIMER: Unless otherwise stated in the applicable contract with the holder of this document, or following from mandatory law, the liability of DNV GL AS, its parent companies and subsidiaries as well as their officers, directors and employees ("DNV GL") arising from or in connection with the services rendered for the purpose of the issuance of this document or reliance thereon, whether in contract or in tort (including negligence), shall be limited to direct losses and under any circumstance be limited to 300,000 USD.

Revision No: **1**

## **Product description**

"BIP W-308E B-15 Class Bulkhead"

composed of 0.6 mm galvanized and 0.4 mm perforated steel sheets on each side of a 48 mm thick mineral wool core (manufactured by KCC Corporation) of density 140kg/m<sup>3</sup> with a 50 x 20 mm (width x height) air gap arranged along vertical direction of the panel inside, spaced every 100 mm.

The panels are joined together by means of male/female connections.

Total bulkhead panel thickness is 50 mm.

For further details, see the Type Examination documentation below.

## **Application/Limitation**

Approved for use as a vertical fire retarding division of class B-15.

Max panel size: 600 x 2480 mm (W x H)

The insulation materials and adhesives used have to be approved according to the Marine Equipment Directive and bear the Mark of Conformity. This requirement may also be applicable for surface materials used, if required by relevant rules and regulations.

Each product is to be supplied with its manual for installation, use and maintenance.

## **Type Examination documentation**

Test report No. AK2013-0125 dated 17 July 2013 from Fire Insurers Laboratories of Korea (FILK), Korea.

Drawing No. F2013-W308E-RO (6 pages) dated 22 May 2013 from manufacturer.

## **Tests carried out**

Tested according to IMO 2010 FTP Code part 3.

## **Marking of product**

The product is to be marked with name and address of manufacturer, type designation, fire technical rating, MED Mark of Conformity and USCG approval number if applicable (see first page).
